Changing Passwords on Genetec Server Admin 5.9

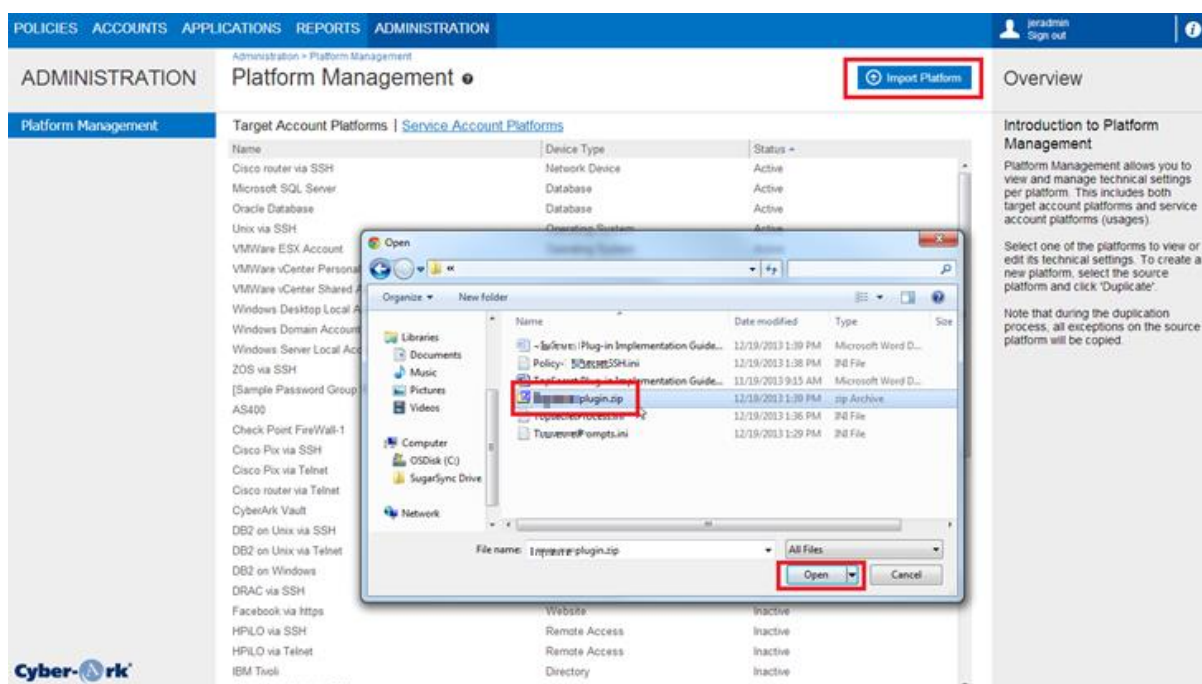

The Central Password Manager enables organizations to change passwords automatically on remote machines and store the new passwords in the Enterprise Password Vault, with no human intervention, according to the organizational policy. This plug-in supports the changing of passwords for users on the Genetec Server Admin 5.9 using the Web.

Installation

You will receive the GenetecServerAdmin_5_9 plug-in zip archive from your CyberArk representative. The following instructions show you how to install it.

Installing the Genetec Server Admin 5.9 Plug-in

1. Log into the PVWA with an administrative account.
2. Go to Administration > Platform Management.
3. Click Import Platform. Upload the GenetecServerAdmin_5_9Plugin.zip file.

Platform Configuration

- The following platform settings are given initial default values. Please check that these match your environment or edit them accordingly.

To Edit these values navigate to:

Administration → Platform Management → Genetec Server Admin 5.9 → Edit →
Automatic Password Management → Additional Policy Settings → Parameters :

Parameter name	Default value	Description
VerifyURL	https://{address}/genetec	The URL to which to connect in the Verify action.
ChangeURL	https://{address}/genetec	The URL to which to connect in the Change action.
WebFormFieldsFile	GenetecServerAdminElementsData_5_9.ini	The name of the file that includes the logic of the actions.
RunVerifyAfterChange	Yes	Indicates whether or not the Verify action will be run at the end of the Change action.
RunVerifyAfterReconcile	No	Indicates whether or not the Verify action will be run at the end of the Reconcile action.
ActionTimeout	10	Maximum number of seconds to wait for an action to complete.
PageLoadTimeout	30	Maximum number of seconds to wait for a page to load. Positive number
BrowserPath	C:\Program Files\Google\Chrome\Application\chrome.exe	Path to the browser exe file.
DriverFolder	bin	Folder where the drive is located.
EnforceCertificate	Yes	Indicates whether or not the target website must be using HTTPS protocol and have a valid SSL certificate.

Adding GenetecServerAdmin_5_9 Accounts

Adding Accounts through the Password Vault Web Access

- Create a new GenetecServerAdmin_5_9 account or use an existing one.
- Specify the required account properties.

For more information about adding password objects in the Password Vault Web Access, refer to the Privileged Account Security Implementation Guide.

General Notes

1. GenetecServerAdmin_5_9 plug-in supports the following:
 - Password change
 - Password verification
2. When specifying a value for an address, set it to be without protocol and port. For example:
 - 127.0.0.1 – is an address in a proper format.
 - https://127.0.0.1:443 – is an address in an improper format, and needs to be changed.
