Changing Passwords on Arctera Insight Information Governance

The Central Password Manager enables organizations to change passwords automatically on remote machines and store the new passwords in the Enterprise Password Vault, with no human intervention, according to the organizational policy. This plug-in supports the changing of passwords for users on Arctera Insight Information Governance using Powershell.

Prerequisite

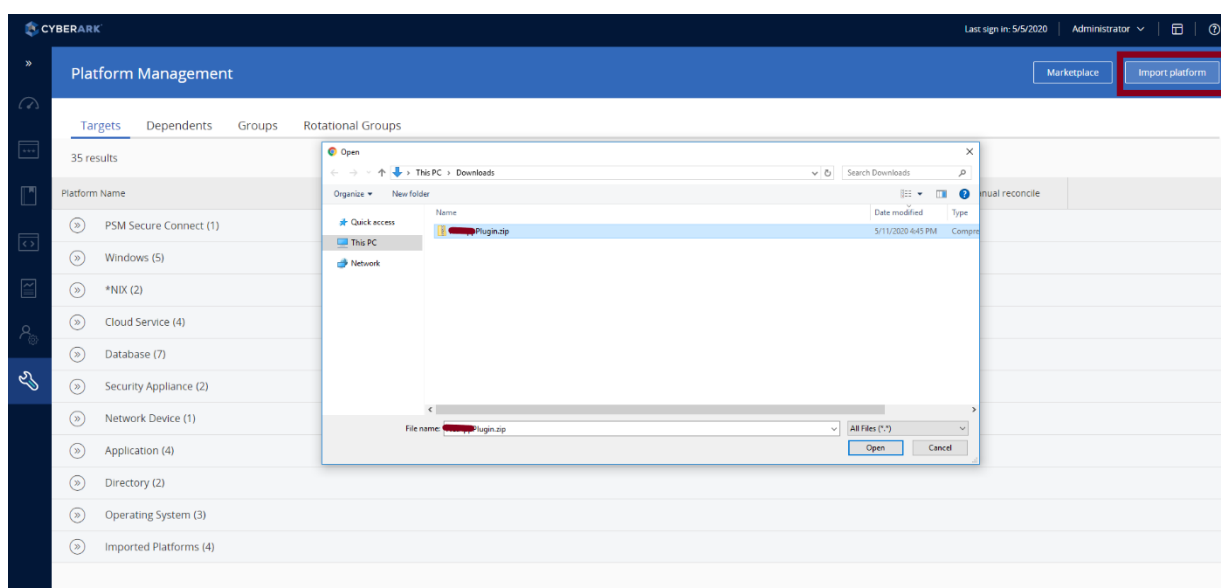

This plugin runs on the Terminal Plugin Controller (TPC) engine. It can be found on the Marketplace [here](#).

Installation

You will receive the ArcteraInsightInformationGovernance usage plug-in zip archive from your CyberArk representative. The following instructions show you how to install it

Installing the Arctera Insight Information Governance Plug-in

1. Log in to the PVWA with an administrative account.
2. Go to Administration > Platform Management.
3. Click Import Platform. Upload the ArcteraInsightInformationGovernancePlugin.zip file.

Platform Configuration

- Please check that the following default platform settings match your environment.
- They can be modified by navigating to Administration → Platform Management → ArcteraInsightInformationGovernance → Edit → Automatic Password Management → Additional Policy Settings

Parameter Name	Description	Value
Port	The port used to connect to the target device.	22

Configuring the Platform Policy Vault Web Access

1. Go to Platform Management and update the existing (master) platform policy.
2. Right-click on 'UI & Workflows' and select 'Add Usages', right-click on Usages, and select 'Add Usage'. Rename the new usage to: {PolicyName}
3. Go to 'Automatic Password Management' -> 'General' and set SearchForUsages to Yes
4. Click "OK" to save these changes

Adding Arctera Insight Information Governance Accounts

Adding Accounts through the Password Vault Web Access

- Create a new ArcteraInsightInformationGovernance account or use an existing one.
- Specify the required account properties.

For more information about adding password objects in the Password Vault Web Access, refer to the online documentation [here](#).

General Notes

ArcteraInsightInformationGovernance usage plug-in supports the following:

- Password change

Pre-requisite(s):

ArcteraInsightInformationGovernance usage plug-in considers the following pre-requisites are already configured:

1. This plugin requires that you have the "credrotation.ps1" script locally on the InfoGov Management Server within the location of "C:\Program Files\DataInsight\Cyberark_CPM\credrotation.ps1"
